

Bella Pelle' & BODY BRONZE Products Inc.

PRE & POST AIRBRUSH TANNING INSTRUCTIONS

BEFORE YOUR TANNING

- Waxing 1- 2 Days before the tanning or Shave the night before (Wax residue will block tanner absorption)!
- Manicures & Pedicures: Please schedule your Mani's & Pedi's at least 1-2 days before your Tanning appointment.
- Best to Shower & Exfoliate before appointment. Avoid using bar soap, which leaves soap residues. Removing dead cells & body oils will help the tanner penetrate your skin to give best results.
- Do not use deodorant, makeup, perfume or moisturizers prior to tanning. Lotions act as a barrier & prevent the solution from contacting your skin.

WHAT TO WEAR DURING AND AFTER TANNING SESSION

- You may tan in the garment of your choice, Bathing suits & underwear work well. Men are required to wear underwear or bathing suit.
- Wear Loose-fitting, dark-colored clothing & flip flops (spring-Summer, Uggs okay for Winter) as the bronzer can rub off on your clothing & shoes can cause your feet to perspire affecting the results.

IMMEDIATELY AFTER YOUR TAN

- Do not wash your hands for at least 4 hrs. (Can use hand sanitizer on the palm of hands) Avoid touching your skin right after tanning to avoid fingers tips from tanning.
- Avoid getting toothpaste outside of mouth when brushing teeth.
- Do not put on tight clothing for at least 4 hour.
- Do not exercise (first day). Perspiring immediately after tanning alters the chemical reaction of the solution, changing its color.
- Do not apply moisturizer (can after shower)

MAINTAIN & PROLONG YOUR TAN

- Wait at least 8 hours before showering (recommend next day) You may see color washing off the first time you shower, this is normal just the bronzer washing off.
- Recommended to pat Dry with towel after shower, avoid rubbing.
- Apply moisturizer after the shower; recommend applying morning & night. This will prolong your tan! Sandee recommends drying off in shower with coconut oil instead of using a towel! Ask how!
- Avoid taking Long HOT baths or HOT Shower, as this would dry your skin out & fade your tan!
- Use Recommended tanning enhancers to Maintain the Color-Sandee's choices that works well with Body Bronze are: HEMPZ Touch of Summer Daily Moisturizer with Tint (comes in 2 shades: Fair & Medium Skin Tones, M.D. BRONZE Self Tanning & Instant Bronzing Lotion, M.D. GLOW Self tanning & Instant Bronzing Mist.

Body Bronze color is customizable to your skin type. Looks and smells great. With proper care, your tan can last for 7-10 Days. Body Bronze ingredients are blended with olive color to negate any orange or red tones. Works great to cover cellulite, stretch marks & varicose veins.
